

ELANTIS **FLEX**

Flexible capacity | No Lock-In | 3 Tiers

Your team has the vision.
We deliver the execution.

It starts with a win...

ELANTIS

01

You made
the right bet.

Your M365 and SharePoint investment was the right call. The rollout went well. Leadership was happy.

02

The business
wants more.

Ideas, requests, customizations — the team's success created demand. Now everyone has a wish list.

THE GAP

But capacity
didn't scale.

Demand is continuous and growing. Internal capacity is fixed. That mismatch is where roadmaps go to stall.

03

Add
Elantis Flex.

Dedicated Microsoft capacity on a simple monthly subscription — no hiring, no lock-in, no SOW for every request.

THE OUTCOME

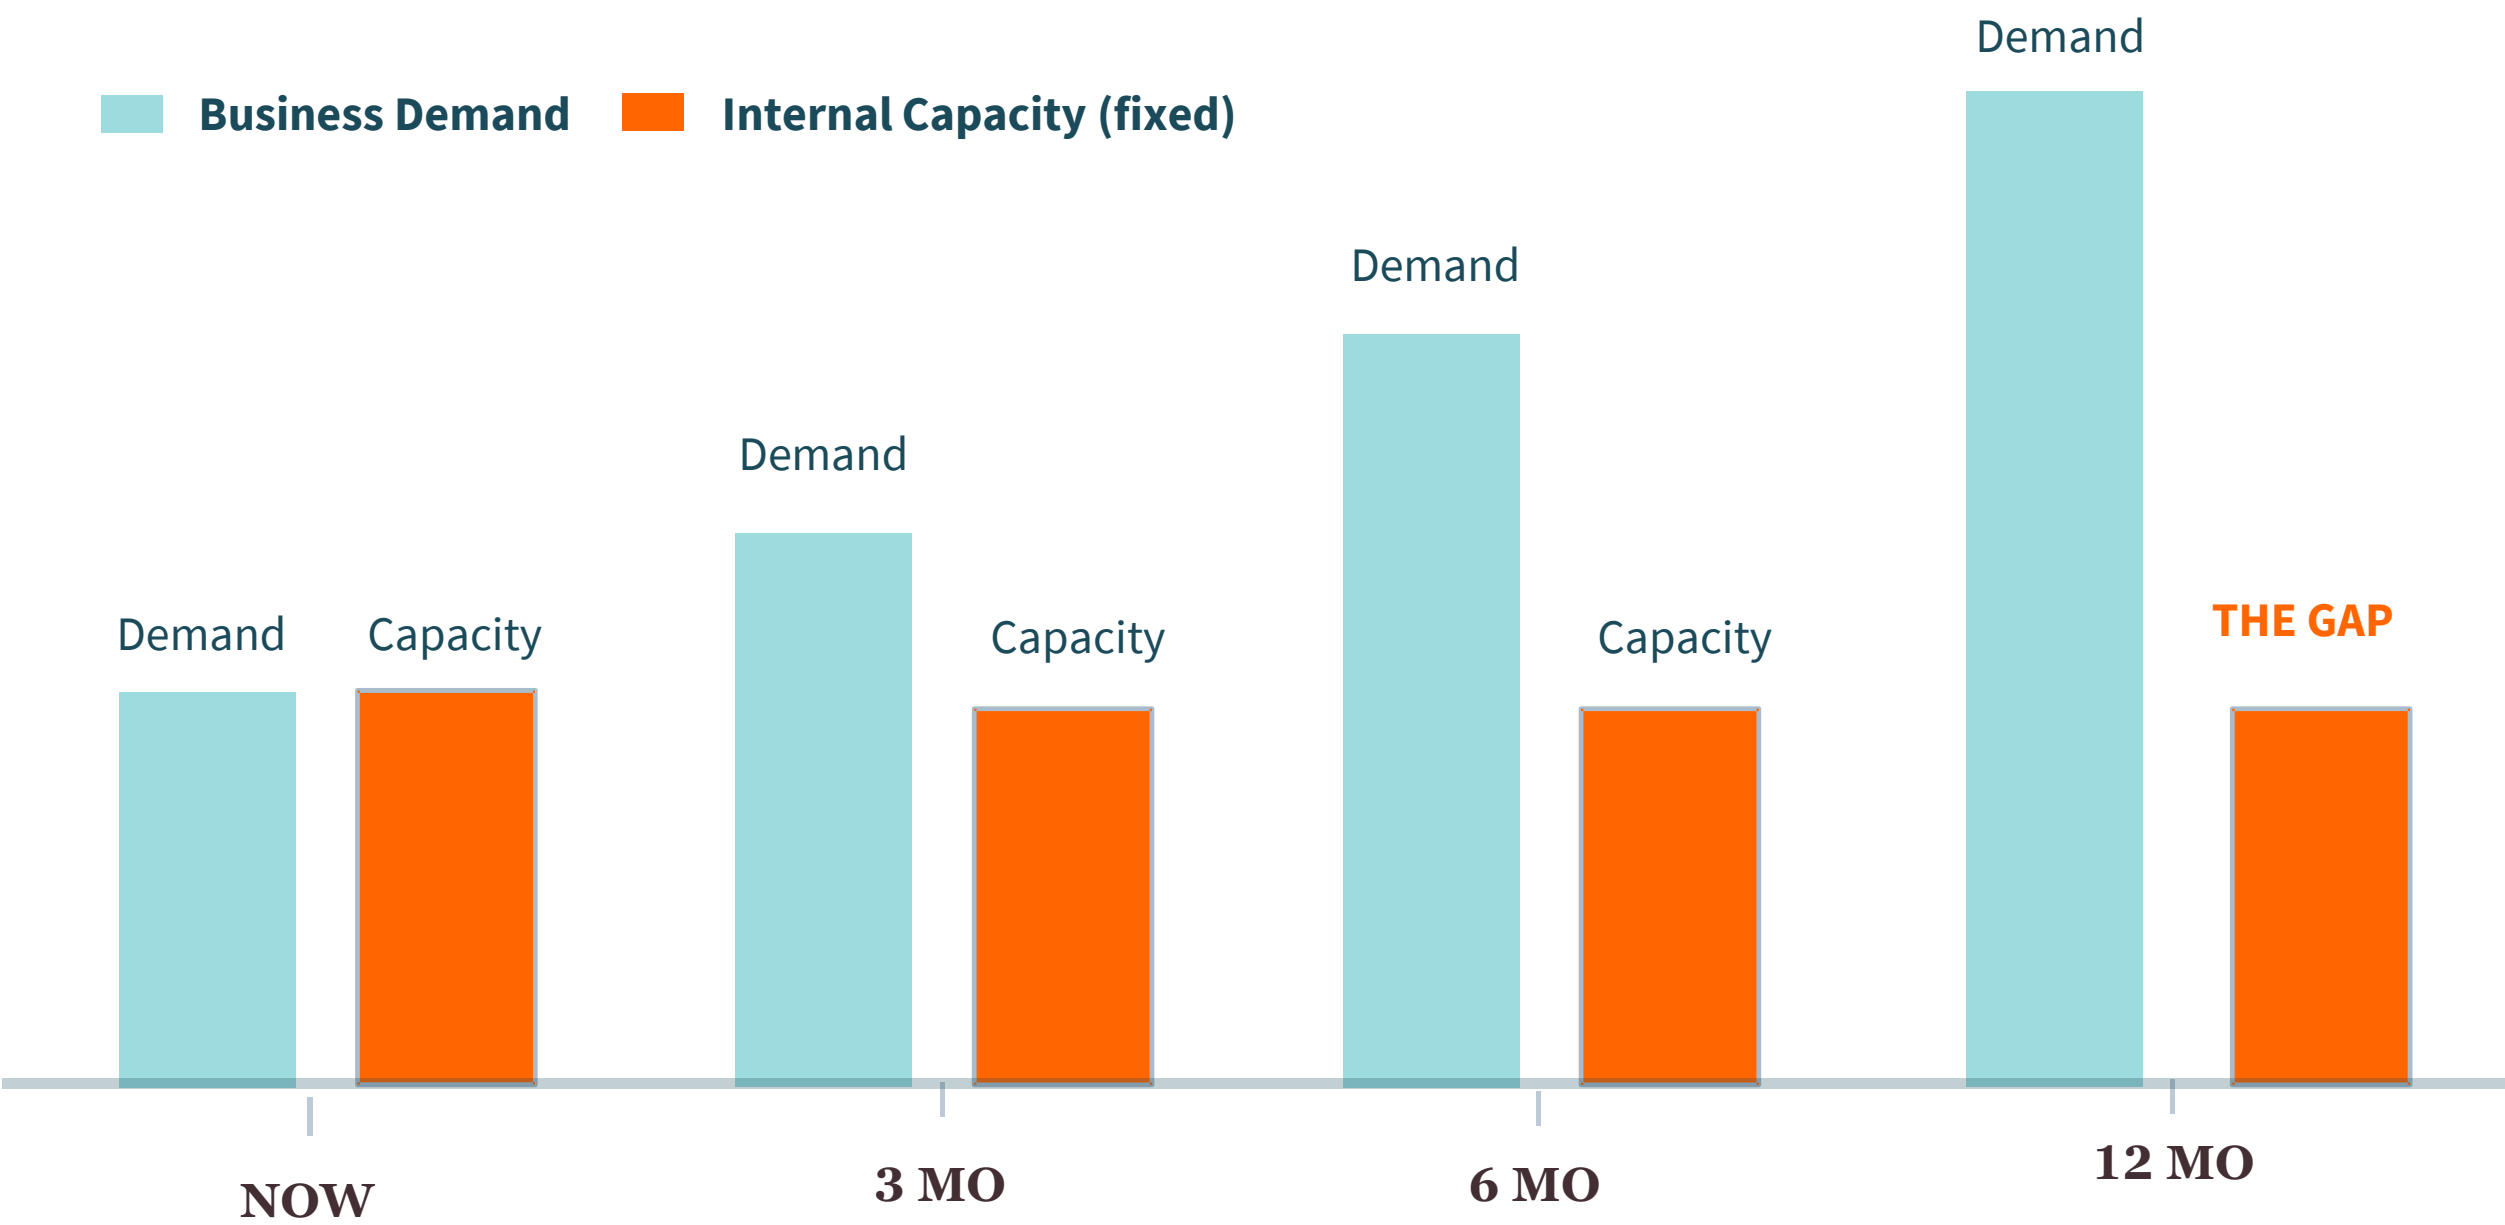

04

Your team leads
the roadmap.
Not the backlog.

Backlog shrinks. Adoption grows. IT is strategic again — and the business stays excited.

Demand Grows. Capacity Doesn't.

Every month the backlog grows, and the usual fixes don't hold.

ELANTIS
FLEX

Close the Gap

- 1 Submit backlog
- 2 We assess
- 3 You approve
- 4 We deliver

The data shows the gap.

ELANTIS

But behind every backlog item is a person with a story.

THE IT DIRECTOR

“I became the bottleneck.”

She ran the rollout. It was a success. Then every department came to her with ideas. She wants to say yes. She can't keep up. The roadmap she's proud of... but turning in change management.

→ She doesn't need more pressure. She needs more capacity.

THE BUSINESS LEAD

“We had so many ideas.”

He was energized after the launch. His team submitted twelve improvement requests in the first month. Six months later, none of them have moved. He's stopped checking.

→ He doesn't need a meeting. He needs to see progress.

THE END USER

“I stopped asking.”

She found a workaround. It's clunky, but it works well enough. She's stopped submitting requests because nothing ever happened. She assumes that's just how it is.

→ She doesn't need a tutorial. She needs the platform to work for her.

Simple. By Design.

Mid-size financial services firm.
SharePoint intranet stalled for 18 months.

→ SITUATION

Internal IT was fully consumed by support. 40+ backlog items untouched.
Business units are building their own Shadow IT workarounds.

→ WITH ELANTIS FLEX

Dedicated 80-hr/month subscription. Elantis embedded into their sprint cadence within 2 weeks.

→ RESULT

32 backlog items closed in 90 days. Intranet adoption up. IT team refocused on roadmap.

“For the first time in two years, I could show the business a moving roadmap.”
— IT Director

2 wks

Average time to first delivery after subscription start

90 days

Typical timeframe to clear a frozen backlog

No SOW

Work moves forward with less overhead paperwork

Choose Your Execution Tier.

Simple, predictable monthly subscriptions: scale up or down as your needs change.

Activate

\$6k

/ month

Up to 40 hrs / month

For teams that need small enhancements and backlog relief

✦ MOST POPULAR

Optimize

\$12k

/ month

Up to 80 hrs / month

For teams with actively executing technology roadmaps

Accelerate

\$24k

/ month

Up to 160 hrs / month

For organizations driving programmatic transformation

All tiers include the same dedicated team experience. No setup fees. Cancel or adjust anytime.

FLEX to close the gap.

Let's talk about your backlog, your roadmap, and whether Elantis Flex is the right fit for your team.

- 1 Schedule a 30-minute discovery call
- 2 We'll map your backlog to the right tier
- 3 Start delivering improvements within weeks
