Josef Hans Lara, Vice President, Business Development at Elantis explains: "Improving processes through automation is a core focus for us at Elantis. ProvisionPoint Enterprise offers a simple and efficient way to automate and maintain SharePoint and Teams governance for our customers. It requires no additional code or development and can be rapidly deployed on customer site. With its attractive pricing model and excellent return on investment, combined with its ability to integrate with SharePoint, ProvisionPoint Enterprise is a great fit for our company philosophy and customer base."

Seb Matthews, Chief Revenue Officer at ProvisionPoint continues: "We're delighted to welcome Elantis as our latest ProvisionPoint Enterprise partner. Offering expertise in SharePoint Intranet Sites and Microsoft Teams, and with great domain knowledge in business process and workflows, we're looking forward to helping them acquire new customers with our powerful, governance application."

ABOUT ELANTIS SOLUTIONS INC.

Elantis is a leader in digital transformation, providing business process automation, enterprise content management, and business intelligence. Our focus is on delivering results that exceed your expectations.

We specialize in low code/no code solutions and configurable platforms that solve our customers' business problems 60% faster than custom development. This includes Microsoft Power Platform, SharePoint, Teams, ProvisionPoint, Nintex, and LiveTiles.

These cutting edge platforms let us develop solutions more efficiently so your organization can be more efficient.
