

IT teams aren't  
short on ideas,  
they're short on  
capacity.

Backlogs grow.  
Strategic initiatives stall.  
Internal teams stay stuck  
in support and  
maintenance.

Elantis Flex closes the gap with a dedicated delivery  
capacity you can deploy instantly.

**No hiring cycles, no procurement delays, no long-term lock in.**

You get immediate access to our Microsoft experts through a simple monthly subscription, so you can move IT initiatives forward without adding headcount or increasing internal workload. We execute alongside your team to deliver measurable progress every month.

Simple by  
design.

- 01** You submit & prioritize work
- 02** We assess & recommend
- 03** You approve what moves forward
- 04** We deliver within your monthly subscription

Increase your capacity for  
IT projects today

## Why Elantis Flex?

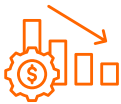

### Real Expertise, Not Bench Resources

Work with specialists across Microsoft 365 and Dynamics 365 - people who have done this work before, in environments like yours.

### Dedicated Capacity You Control

Reserved monthly hours aligned to your priorities. You get the same team so there's no re-explaining your environment every time.

### Predictable Cost

A fixed monthly subscription with the ability to scale up or down as your needs change. No surprises, and no unused overhead.

### Execution without Friction

No SOW cycles for every request. No starting from scratch. Just prioritized work moving forward on an agreed schedule.

## Choose from Three Flexible Options

### Activate

**For teams that need small enhancements and backlog relief**

\$6k per month

Up to 40 hours per month

### Optimize

**For teams with actively executing technology roadmaps**

\$12k per month

Up to 80 hours per month

### Accelerate

**For organizations driving programmatic transformation**

\$24k per month

Up to 160 hours per month
